

Mayrhofner Bergbahnen

A mountain experience in the Mayrhofen-Hippach holiday region means tempo, action and adrenalin as well as relaxation and pleasure. The 57 modern lifts in the Mayrhofen skiing area bring action lovers onto the snappy slopes on the Action Mountain Penken, and recreational skiers, families or beginners can enjoy the sunny carving slopes on the Leisure Mountain Ahorn. Numerous highlights are waiting to be explored on the 136 kilometres of ski slopes on the Penken as well as on the Ahorn. Those who want lots of action can pay a visit to Penken. Here die-hard freestylers will find their perfect playground at Vans Penken Park, one of the best snow parks in Europe. On the "Harakiri", Austria's steepest slope adventure with a 78% gradient, there is only one direction - namely steep downhill! Mayrhofen shows its quiet and introspective side on the Leisure Mountain Ahorn. In particular, the Funslope Ahorn offers lots of skiing fun for children and beginners, and anyone who needs fortification after countless downhill runs can indulge in a stop-off for refreshments on the sun terrace at Café-Bistro Freiraum or let the day come to an end in one of the comfortable deckchairs in the White Lounge igloo village. The igloo suites open their doors for an overnight stay at Ahorn for all those who still do not have enough. **NEW:** Since last winter the ski slopes of Leisure Mountain Ahorn can be explored by taking a Snow Limo Tour.

FACTS

Total capacity: 45.345 Pers./h

Ski slope area: 369 ha*

Lift facilities: 23

**Ahorn-Penken-Rastkogel-Eggalm*

Ski area highlights

Snow Limo Tours

Why not get to know the skiing area from a totally different perspective offering added excitement and entertainment? The Ahorn is the perfect place for it. Snow Limo Tours were introduced last winter - and they are unique in Europe. The unusual vehicle - a sled on two skis - originally comes from Canada. Passengers are chauffeured over the pistes of the Ahorn Plateau by trained staff in comfort and safety, but still in sporty and individual style. It's perfect for non-skiers - or indeed anyone who wants to take a break from skiing.

3S Penkenbahn

The new Penkenbahn combines outstanding running smoothness and generous space with the incomparable panoramic view of the Zillertal Alps around Mayrhofen. The 33 comfortable cable cars fitted with WLAN offer seating for 24 persons and can transport up to 2,880 persons per hour into the ski area. Waiting times are a thing of the past, also on the descent.

Harakiri - Austria's steepest slope adventure

Pure thrills, 78% gradient, and a piste that can be groomed only with cable winches and special equipment. The Harakiri is a challenge, even for veteran pros.

Vans Penken Park

The Vans Penken Park with its six different areas is a meeting place for the international freestyle scene and sets the standard for snowboarders and freeskiers all over Europe.

Funslope Ahorn

The Funslope is an absolute highlight piste for all winter sports enthusiast - from skiers to snowboarders and from beginners to experts. With waves, high fives, low fives, wells and banked runs, the Funslope is not about speed or looking good, it's simply endless fun.

White Lounge

Whether by day or night, the White Lounge is a real highlight at 2,000 m. During the day you can relax in a lounge with cool drinks to chillout lounge music. After dark, the Original Igloo Hotel then opens its doors. Cosy thermal sleeping bags and perfectly insulated bed spaces turn every overnight stay into an unforgettable experience.

Mayrhofen-Hippach

Altitude Tour

Mayrhofner Bergbahnen

Hungry for heights and a side order of adrenalin? Satisfy your cravings here! You can cover 14,000 metres of altitude in one go, including the steepest skiing experience in Austria.
